FEATURES

LET'S HAVE SOME FUN

Connect to the OhMiBod Remote App and let the games begin! The bar for sexting has officially been raised with in-app photo and text sharing abilities. Or take it one step further with our real-time video conferencing, guaranteeing you don't miss out on any of the action. A simple swipe-up and you have the vibe's controls at your fingertips. Just launch, pair & play!

VIBING TO THE MUSIC

Take your jam sessions into the bedroom with 'Club Vibe' mode; enabling the vibrator to vibrate to the surrounding sounds. Turn on your favorite sexy playlist, grab your lucky guitar or maybe have your lover recite their favorite poem and enjoy the vibes.

WAYS TO PLAY

The NEX|2 offers countless ways to vibrate all at the touch of your fingertips. Feeling creative? Use 'Tap & Record' to create your own pulses by tapping the screen. The longer the tap, the longer the vibrate. Don't want to think about it too much? 'Rhythm' mode allows you to choose from OhMiBod's custom patterns. For those of you who like it 'old school', it comes with 7 powerful pre-set scalable pulsations that hit all the right spots.

WATCH WHAT HAPPENS

Does your partner make your heart skip a beat? Well now they can feel it with the NEX|2. Simply connect to your Apple Watch and sync the vibrations to your pulse. Feel your heart race with anticipation and move to your own rhythm.

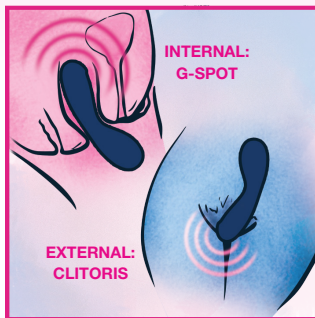

OH! YES!

When it's all said and done, give your partner, or yourself, a standing OH-vation with the 'Oh!-Dometer'. After a satisfying session, log your orgasm on your Oh!-Dometer and send a quick notification to your partner letting them know just how good you feel. Better yet, set orgasm goals for yourself on a weekly or even daily basis; you can never have too many!
