FEATURES

RIDE THE WAVE

Finally a smart design that feels as good as it looks. The blueMotion NEX|3 features Velvet Wave™ comfort technology for a soft-to-the-touch, pillow-like feel and waves for just the right amount of friction. Don't want your partner to feel left out? Well this couple's ring features an Extended Touch™ Design to ensure consistent contact for both you & your lover. Shared pleasure for a one-of-a-kind experience, providing the best of both worlds. Leaving everyone involved satisfied and ready for round two.

WAYS TO PLAY

Take your pleasure into your own hands. The NEX|3 offers countless ways to vibe all at the touch of your fingertips. Create your own unique pulses by simply tapping the screen with it's 'Tap & Record' mode. Keep it simple with 'Rhythm' mode, enabling you to choose from OhMiBod's custom patterns. For those who like to do it old school, take the pressure off with one of the 4 powerful pre-set scalable pulsations that hit all the right spots.

VIBING TO THE MUSIC

Take your jam sessions into the bedroom with OhMiBod's signature 'Club Vibe' mode; enabling the vibrator to vibrate to the surrounding sounds. Turn on your favorite sexy playlist and feel NEX|3 as it syncs to the music. Match the motions and feel as your bed becomes a dance floor.

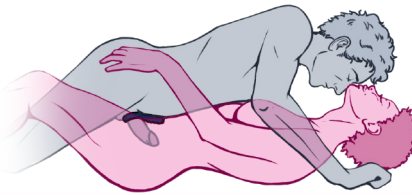

WATCH WHAT HAPPENS

Does your partner make your heart skip a beat? Well now they can feel it with the NEX|3. Simply connect to your Apple Watch and sync the vibrations to your pulse. Feel your heart race with anticipation and move to your own rhythm.

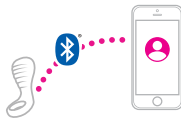

RIDE THE WAVE YOUR WAY!

With our Extended Touch™ design ensuring consistent contact for shared pleasure
