FEATURES

THE PERFECT FIT

Attention to detail has a whole new meaning. The Lumen features Velvet Wave™ comfort technology, a cushioned ridged silicone that delivers both comfort and pleasure for a blissful, yet oh-so pleasurable experience. Its external ridges make for just the right amount of friction and stimulation for an out-of-this-world experience.

SHINE BRIGHT

This show-stopping pleasure plug can catch any spotlight with its LED diamond-like light. Whether you're performing, flying solo or having an intimate night-in with your partner, the Lumen can provide visual feedback to turn on anyone, even yourself. Together, we can turn your bedroom into your stage. Illuminate the possibilities!

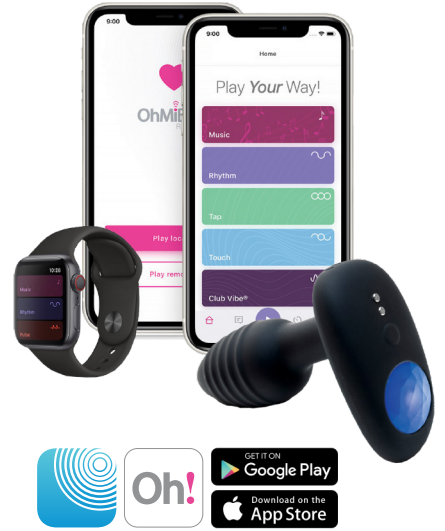

GET YOUR VIBE ON

Lumen offers discreet play with its long-distance control, for on-the-go pleasure. Connect via the OhMiBod Remote™ App and let the games begin! Featuring OhMiBod's infamous Club Vibe® mode for music-driven pulsations, adapting to ambient sounds like your go-to playlist or the sound of your partner's voice. For an old school experience, turn on one of our 4 manual mode pulsations and let the Lumen hit all the right spots. Choose your mode and find your spotlight!

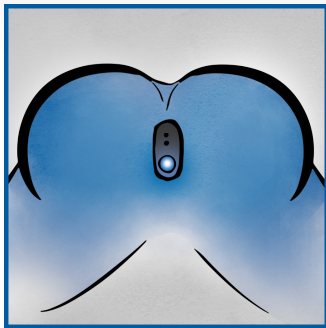

INTERACTIVE PLAY

Take your pleasure to the next level by connecting to any Kiiroo® interactive product. Using Kiiroo's FeelConnect app, you can create a connection between devices from anywhere. The paired Kiiroo® device can drive the interaction with the Lumen, expanding your play creating a truly interactive experience. Sync up, and share the passion!
