"OhMiBod has just laced lacy underwear with **digital smartness**."

# THE HUFFINGTON POST

"The perils of technology on relationships are legion; romantic meals once illuminated by candlelight are now set aglow by smartphone screens, while iPads make for more cozy bedfellows than each other. Hearing the familiar clinking of glass screens in a moment of attempted intimacy usually kills the vibe. But just when we worried we'd soon see smart watches in robin egg blue boxes, one husband/wife tech team created a device designed to **bring couples closer**."

"Ladies, get ready to wear a smart underwear and Gentlemen, get ready with your smartphone to **control your partner**."

"It's **cute**, it's **fun**, and it doesn't look at all like most vibrators."

"When Peggy Olsen, "Mad Men's" eager-beaver copywriter, discovered the **erotic pleasures** of granny pants designed for weight loss-- the "electrosizer"-cum-"rejuvenator" -- she may have been ahead of her time."

"OhMiBod is a driving force for innovation in the industry. Not only are they **pushing technology** to the limits, but they are doing so with elegant design that Jony Ive would love."
