FEATURES

LET'S HAVE SOME FUN

Connect to the OhMiBod Remote App and let the games begin! The bar for sexting has officially been raised with in-app photo and text sharing abilities. Or take it one step further with our real-time video conferencing, guaranteeing you don't miss out on any of the action. A simple swipe-up and you have the vibe's controls at your fingertips. Just launch, pair & play!

VIBING TO THE MUSIC

Take your jam sessions into the bedroom with 'Club Vibe' mode; enabling the vibrator to vibrate to the surrounding sounds. Turn on your favorite sexy playlist, grab your lucky guitar or maybe have your lover recite their favorite poem and enjoy the vibes. Or take things a step further with our 'Music Mode,' allowing the OhMiBod Remote App access to your Spotify and Apple Music library so you can vibrate to your favorite artists. Sync the panty vibe to your favorite sexy playlists that gets you going!

WATCH WHAT HAPPENS

Does your partner make your heart skip a beat? Well now they can feel it with *Sphinx*. Simply connect to your Apple Watch and sync the vibrations to your pulse. Feel your heart race with anticipation and move to your own rhythm.

OH! YES!

When it's all said and done, give your partner, or yourself, a standing OH-vation with the 'Oh!-Dometer'. After a satisfying session, log your orgasm on your *Oh!-Dometer* and send a quick notification to your partner letting them know just how good you feel. Better yet, set orgasm goals for yourself on a weekly or even daily basis; you can never have too many!
