iVibe™ Select is a line of “affordable luxury” vibrators that deliver next-level pleasure. These high-quality vibes offer a variety of unique features in sensual designs and a range of body-friendly shapes and sizes to accommodate many preferences. All iVibe Select™ vibrators are USB rechargeable (individual charging cables included), and specially designed to produce powerful rumbling vibrations, for deep stimulation to multiple erogenous zones.

FEATURED PRODUCTS:

iVibe™ Select - iRoll: This silicone vibrator offers a new combination of innovative features, for unwavering pleasure— with 3-speed internal pleasure beads that move up and down the shaft, a 3-mode rotating “tongues” clitoral stimulator, and 8 functions of deep, rumbling shaft vibrations. All three motors (pleasure beads, “tongues” wheel, and shaft vibrations) are independently controlled, so users can enjoy a single feature, any two, or all three at once.

iVibe™ Select - iPlease: Small, compact, yet incredibly powerful; this rechargeable mini vibe sets the new standard for strong vibrations in a petite package. The iPlease features 20 functions of deep, rumbling vibrations, a tapered lipstick shape, and a silicone grip ring that allows for comfortable, seamless maneuvering—whether solo or with a partner. iPlease is also perfect for both internal or external use.

iVibe™ Select - iWand: This premium silicone wand-style vibrator features 7 functions of deep, rumbling vibration— and boasts an ultra-satisfying warming mode that gently heats the silicone wand head to a pleasurable, body-safe temperature. The independently-controlled warming and vibrating features can be used separately or together.

iVibe™ Select - iRock: The premium silicone iRock features a sensuously curved shaft that not only vibrates, but also flexes back and forth in a ‘come hither’ motion, to deliver powerful G-spot pleasure. The 7 functions of deep, rumbling vibrations are independently controlled from the flexing option, so users can enjoy both features separately or together.

iVibe™ Select - iRipple: Perfect for both internal or external stimulation, this premium silicone vibe features three separate motors strategically placed along the shaft, to create an endless variety of thrilling combinations—including an erotic rolling effect that travels up and down the insertable shaft.

iVibe™ Select - iBend: Perfect for both internal and external stimulation, this posable, premium silicone vibrator boasts 7 functions of deep, rumbling vibrations—and can be repeatedly bent and shaped, letting users craft it into their perfect position, whether they’re targeting the g-spot, prostate, or using it for external stimulation. Unlike other flexible massagers on the market, the iBend is specifically designed to hold its shape until users re-position it or return it to its original shape.

iVibe™ Select - iCome: This insertable massager, curved for G-spot stimulation, offers 7 functions of deep, rumbling vibrations, and features an external clitoral stimulator that strokes and vibrates up and down the clitoris. The independently-controlled shaft and clitoral motors of the iCome can be used at the same time or separately, in any combination of seven exciting shaft vibration patterns and two clitoral stimulator settings.

CARE AND MAINTENANCE:

To clean any iVibe Select vibrator, spray with Doc Johnson® Toy Cleaner (sold separately) or wash with mild soap and warm water and wipe clean. For products with open charging ports, avoid getting liquid inside the charging port and do not submerge the products. The iVibe Select iPlease and other products designed with a magnetic charger base are 100% waterproof and can be submerged for use or cleaning. Allow your iVibe Select vibe to dry completely before storing separately from other toys in a cool, dry place. Use with water-based lubricants only.

DIMENSIONS:

Product Name	Bulk Total Length	Bulk Insertable Length	Bulk Width	Bulk Circumference
iRoll	9.5"	5.0"	1.5"	4.8"
