- K 4 Small Tank Knobs
- L VUL Plug
- M VUL Safety Bumper
- N 1 Larger Back Handle Knob
- O Adjustable Machine Handle
- P Power cord w/ block
- Q International Power Adaptor

ASSEMBLY

FOR HAND-HELD USE

- ① Install Adjustable back handle as shown with large knob.

To adjust the handle's angle, unscrew the knob until the handle is free to rotate. Tighten the knob again at your desired position.

- ② Unscrew machine nose until the handle rotates freely as shown

- ③ Once in the desired position, tighten the nose again until firmly secured.

FOR MOUNTED USE

- ① Screw all four feet to bottom of base

- ② Fill the removable tanks with clean water or play sand. Screw their lids on tightly

- ③ Use the 4 small tank knobs to attach the filled tanks to the metal base.

Locking Tab in unlocked position

- ④ Locate the rotating arm lock tab and unlock it by lifting as shown. Once unlocked, the arm will rotate freely. Place it at desired height.

Locking Tab in locked position

- ⑤ Once in the desired position, lock it in place by pushing the lock tab in its original, locked position.

- ⑥ Attach the fuck machine to the rotating arm as shown, by screwing the large handle knob through the machine holder into the machine itself, until tightly secure in the desired position.

FOR STANDALONE HANDLE USE

Screw attachment onto accessory handle

USAGE

MACHINE ONLY OR MACHINE ATTACHED TO BASE

- 1 Plug the rounded socket into the fuck machine

- 2 Plug the rubber socket into the bottom of the power bank
- 3 Plug power cord into wall outlet. if not in the US, plug into universal adaptor and then plug into wall

- 4 Screw on attachment of your choice, as far as it will go with the buttons facing up, secure with locking ring
