## About This Product

The iVibe™ Select iRipple elevates the classic insertable massager from toybox staple to multi-dimensional pleasure tool. Where most vibrators feature a single motor capable of a few different modes, the silicone iRipple has three separate motors strategically placed to create a number of thrilling combinations, including a rolling effect up and down the insertable shaft.

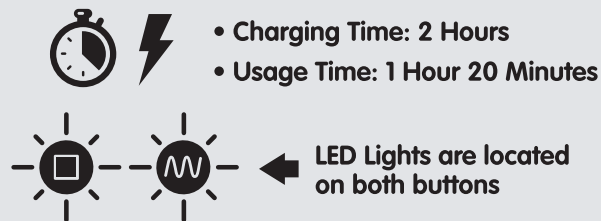

## Why Silicone?

Silicone is hypoallergenic and nonporous, making it the safest and most high-end material used in today's pleasure products. Our premium silicone is completely body-safe without compromising the beauty of each piece and has a smooth, velvety texture. When we created the iVibe™ Select line of products, we knew that this attractive and hygienic material was the only acceptable choice.

## Getting Started

For the best experience, we recommend cleaning and fully charging your iVibe™ Select iRipple before the first use.

**To charge,** connect the USB cable included with your iRipple into your preferred power source. Locate the small charging port at the bottom of your iRipple and firmly push the charger jack into it. (The charging port may appear too small due to iRipple's protective silicone exterior, but will stretch to accommodate the charger.)

**LED Flashing:** Charging

**LED Continually Lit:** Item is fully charged

**LED Off:** Charging Cable Detached

## Using Your iVibe™ Select iRipple

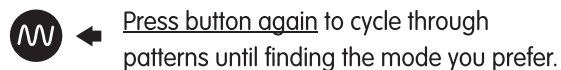

iRipple is an insertable silicone massager equipped with three powerful motors. Many users find that their iVibe™ experience is improved with the use of a water-based lubricant.

**Do not use the iVibe™ Select iRipple with oil-based or silicone-based lubes.**

### To Turn On iRipple's Powerful Vibrations

### To Change the Vibration Pattern

### To Turn Off iRipple

## Care and Maintenance

Proper cleaning and storage of your iVibe™ Select products are essential for your continued enjoyment.

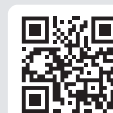

**To clean,** spray with Doc Johnson® Toy Cleaner or wash with mild soap and warm water and wipe clean, avoiding iRipple's charger port. Do not submerge. Allow your iRipple to dry completely before storing separately from other toys in a cool, dry place. (Doc Johnson® Toy Cleaner not included.)

**When storing,** ensure that your iVibe™ Select product does not come into contact with other toys. Keep away from extreme heat, cold, and moisture. Use iVibe™ Select products with water-based lubricants only; oils and silicone-based lubes will degrade the material of your iRipple.

**WARNING FOR VIBRATING PRODUCTS:** To avoid injury or aggravation of pre-existing conditions, this product should not be used on swollen or inflamed areas or skin lacerations. No medical claims are warranted or implied by the use of this product.
