Don't be fooled by imitations! These are the most realistic cocks ever made! All pieces from The Realistic Cock™ collection by Doc Johnson are molded directly from an actual erect penis and handcrafted to perfection, featuring an incredibly lifelike look and feel for the most realistic experience imaginable.

The Realistic Cocks™ are available in three colors, White, Black, and Brown, in a wide variety of options, including vibrating and non-vibrating, with and without balls, slim and classic... the possibilities are truly endless. Non-vibrating Realistics are Vac-U-Lock™ and O-Ring harness compatible. All Realistic Cocks are Proudly Made in America.

Featured Products:

The Realistic Cock - 6 Inch: Molded directly from an actual erect penis, for an incredibly lifelike look and feel. Handcrafted detailing includes textured veins along the shaft and big, realistic balls. A removable suction cup base with tab release offers stability on any flat surface. Vac-U-Lock™ and O-Ring harness compatible.

The Realistic Cock Vibrating - 8 Inch: This Realistic Cock delivers powerful multi-speed waterproof vibrations operated via twist control. Handcrafted detailing includes textured veins and big, realistic balls. Internal vibrating mechanism is removable, and features a suction cup base for stability.

The Realistic Cock - UR3® - 6 Inch: Made of dual-density UR3®, this Realistic Cock boasts a soft, plush exterior and a hard inner core, for the most realistic experience imaginable. Handcrafted detailing includes textured veins along the shaft and big, realistic balls. Features a removable suction cup base for stability. Vac-U-Lock™ and O-Ring harness compatible.

The Realistic Cock - UR3® - Vibrating 8 Inch: Made of dual-density UR3®, this Realistic features a soft, plush exterior and a hard inner core, and delivers powerful multi-speed waterproof vibrations operated via twist control. Handcrafted detailing includes textured veins and big, realistic balls. Internal vibrating mechanism is removable, and features a suction cup base for stability.

The Realistic® Cock - UR3® Slim - 7 Inch: Featuring a slim design perfect for all experience levels, this Realistic Cock is made of dual-density UR3®, with a soft, plush exterior and a hard inner core. Handcrafted detailing includes textured veins along the shaft and big, realistic balls.

The Realistic® Cock - UR3® Slim Vibrating - 9 Inch: Slender and beginner friendly, this Realistic is made of dual-density UR3®, with a soft, plush exterior and a hard inner core. It delivers powerful multi-speed waterproof vibrations operated via twist control. Handcrafted detailing includes textured veins and big, realistic balls. Internal vibrating mechanism is removable, and features a suction cup base for stability.

The Realistic® Cock UR3® - 8 Inch: Designed without balls, and made of dual-density UR3®, this Realistic features a soft, plush exterior, and a hard inner core. Textured veins along the shaft add extra pleasurable stimulation, and a removable suction cup base with tab release offers stability on any flat surface. Vac-U-Lock™ Compatible.

Care and Maintenance:

To clean, remove suction cup or vibrating base and spray with Doc Johnson Antibacterial Toy Cleaner (1399-02-BU), or wash with mild soap and warm water. Pat dry, then store separately from other pleasure products in a cool, dry place. Remove batteries before storage, if applicable. UR3® Realistics should be dusted with UR3® Refresh Powder before storing.
