OptiMALE™
Men's Sexual Health + Wellness

Edging Instructions

Edging is the sexual process of bringing yourself close to climax but stopping before you ejaculate.

Benefits of Edging:

- Enhance Sexual Stamina
- Help Prevent Premature Ejaculation
- Extend Your Sexual Plateau Phase

How to Edge:

- Use the OptiMALE Reversible ULTRASKYN™ Stroker to arouse yourself until you achieve an erection. For optimum performance, use with OptiMALE Water-Based Glide.
- When you are close to orgasm, stop stroking and either remove the Stroker or pull it towards the base of your penis. Try not to touch the head of your penis, where sensitive nerves are located. Stay still until your arousal level subsides.
- Inhale and exhale slowly and concentrate on being in control of your penis.
- When you no longer feel like you are going to ejaculate, start arousing your penis again.
- Repeat this stamina exercise process without allowing yourself to ejaculate.

OptiMALE Personal Care products are formulated to enhance your lifestyle -

So Big Plumping Cream

Achieve thicker, fuller erections with OptiMALE So Big Plumping Cream. This ultra-smooth cream enhances sexual performance and maximizes pleasure by plumping up your erection for huge satisfaction. Applies easily and works quickly. Naturally derived.

So Hard Delay Cream

Stay harder for extended sessions; use the So Hard Delay Cream from the OptiMALE collection. This desensitizer decreases sensitivity, with a simple application of the non-sticky cream formula - applies easily and works quickly. Naturally derived and alcohol-free.

So Dry Anti-Chafing Lotion

For optimal comfort, never go a day without So Dry Anti-Chafing Lotion. Infused with aloe and vitamin E, the lotion-to-powder solution prevents sweating, sticking, chafing, and odor; leaving a fresh masculine fragrance with no powdery residue. Aluminum and Talc-Free.

So Big, So Hard and So Dry
