Why Pumping?

Pumping the erogenous zones of your body can help prepare it for sexual activity. Areas that have been pumped have increased blood flow and become enlarged, allowing for heightened sensitivity during intercourse or masturbation.

**TO OPERATE:**

- Attach the cup by pushing onto handle, making sure to align triangles ▶ ◀ on neck and cup; DO NOT TWIST.
- Press **▶** to turn on and cycle through suction functions.
- Press **◀** to turn on and cycle through vibration functions.
- Press and hold each button for 3 seconds to turn off their functions.

**TO LOCK/UNLOCK:**

- To lock, press and hold either **▶** or **◀** for 3 seconds. LED display will light on both buttons to show lock is activated.
- To unlock, press and hold either **▶** or **◀** for 3 seconds. LED display will light on both buttons to show lock is disabled.

**TO CHARGE:**

- Plug USB end of cord into your preferred power source.
- Connect cable to charge port on bottom of handle. The LED display will flash while charging.
